

1 INTRODUCTION

Overview

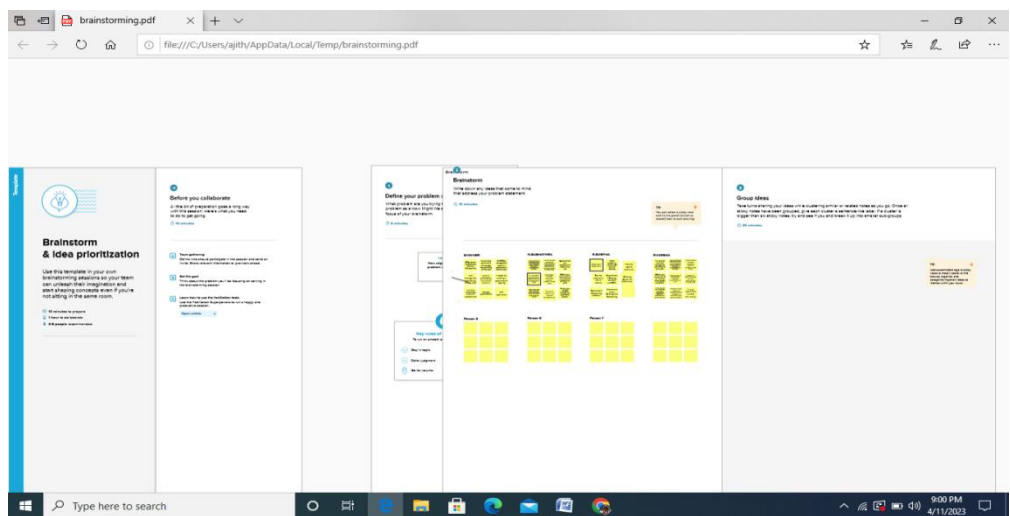

The Travel Support System is a small sample application for Natural One. As a sample application, its focus is to show Natural One functionality rather than being a full-fledged travel support application. The travel support system allows you to request and approval business trips. Flights, hotels and even more external information such as cell phone expenses or car rentals can be entered with the trip request. Install the sample application by clicking Travel Approval Application on the welcome page. Travel approval means approval of official travel in advance by an appropriately delegated officer, utilizing the appropriate form or system.

Purpose

Travel request forms are designed to give management an overview of the intended business trip from both a cost and a strategic point of view. The fields that typically appear on a travel request form include;Employee name and contact information.

2 Problem Definition & Design Thinking

3 RESULT

Data Model:

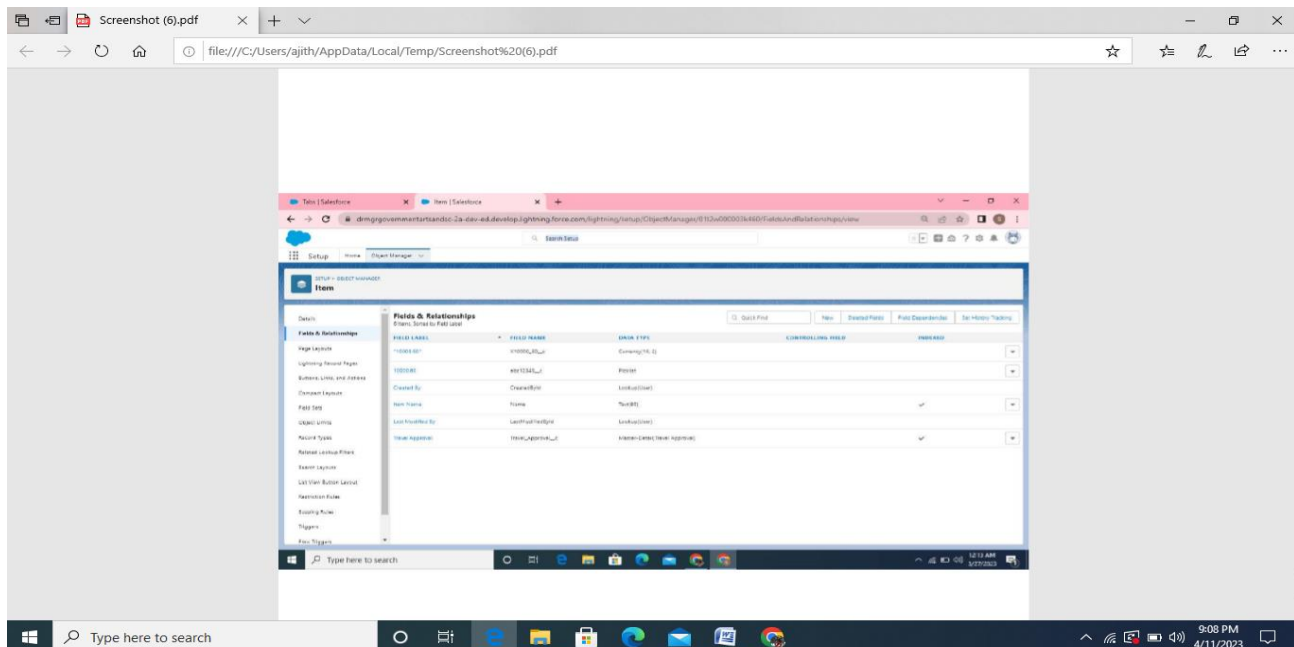

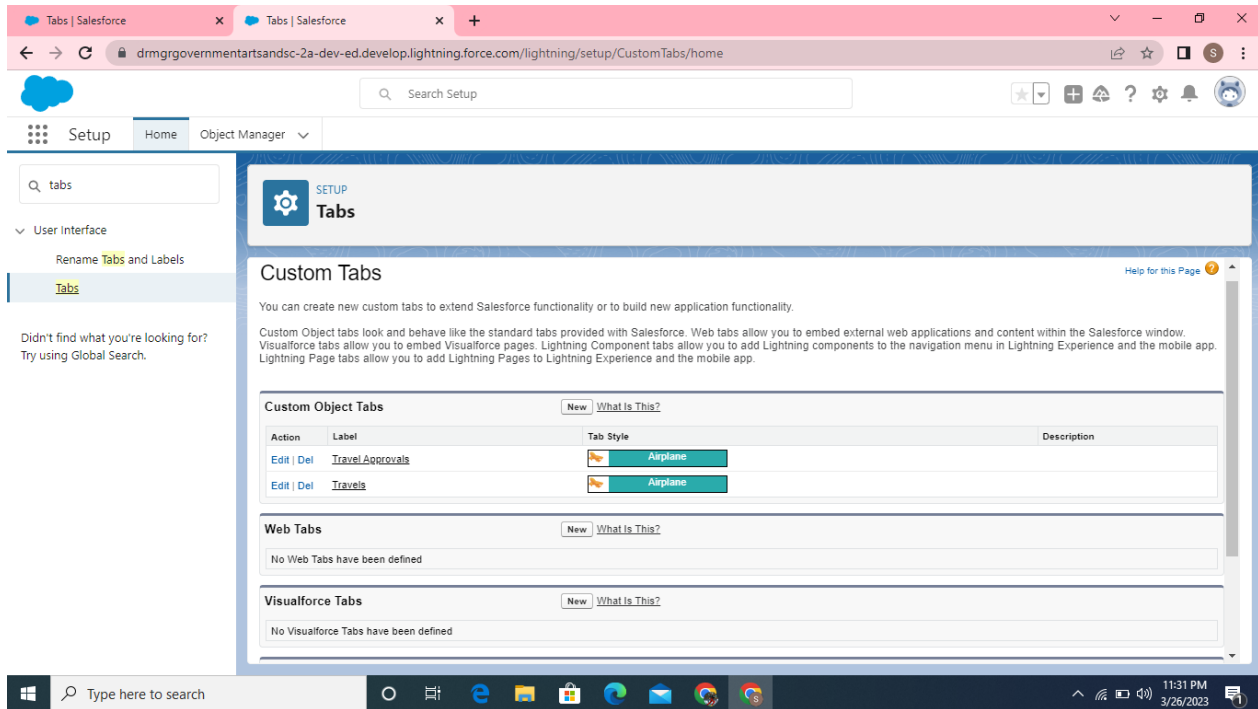

Object name	Fields in the Object	
obj1	Field Name	Data Type
	Travel approval	Customer Object
obj2	Field Name	Data Type
	App	Customer object

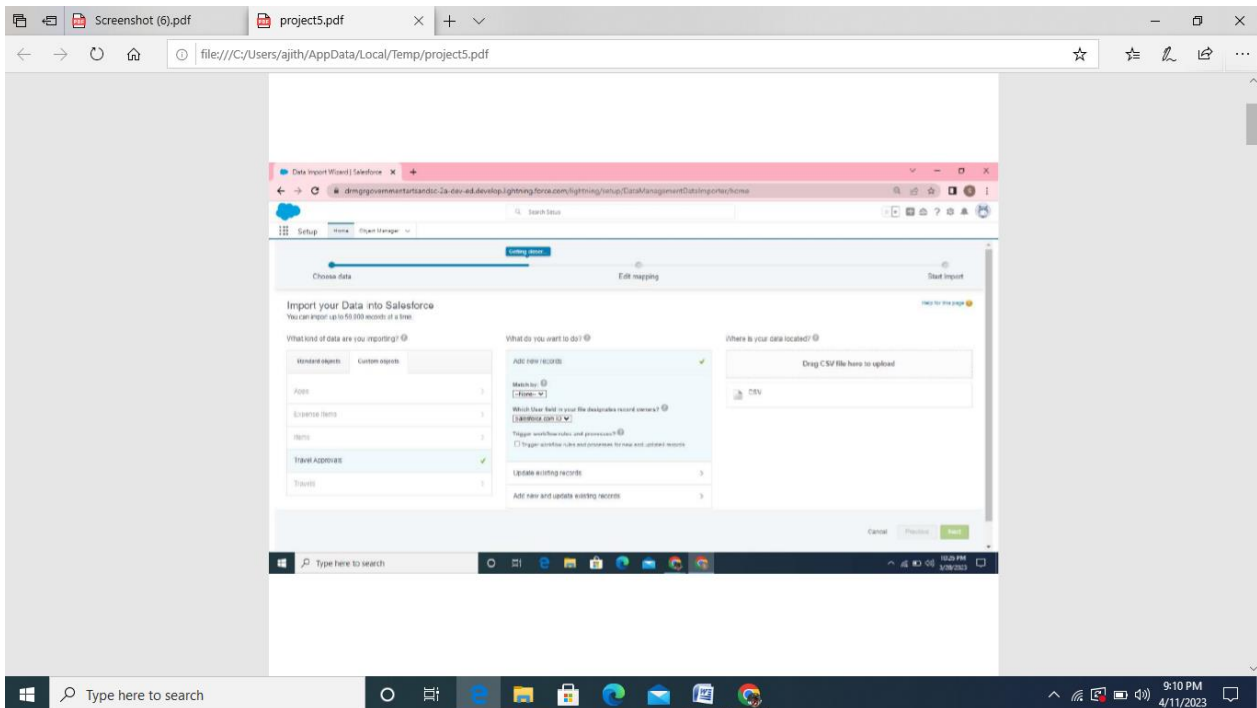

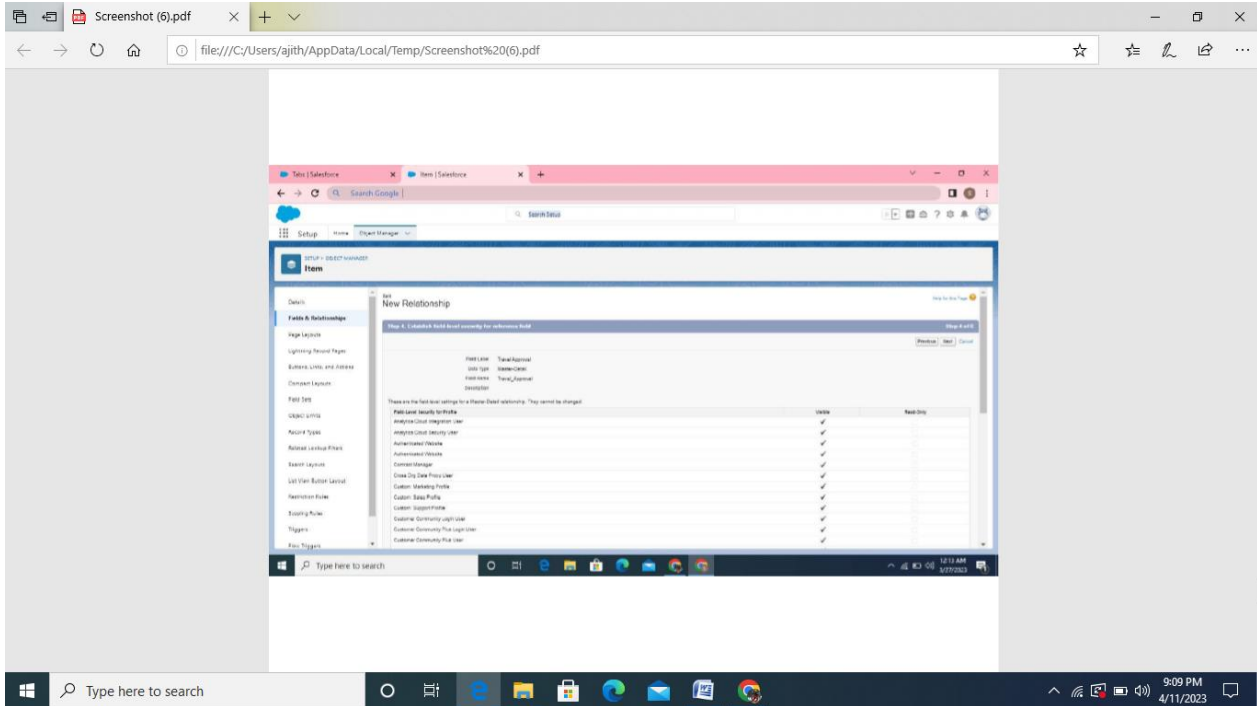

Activity & Screenshot

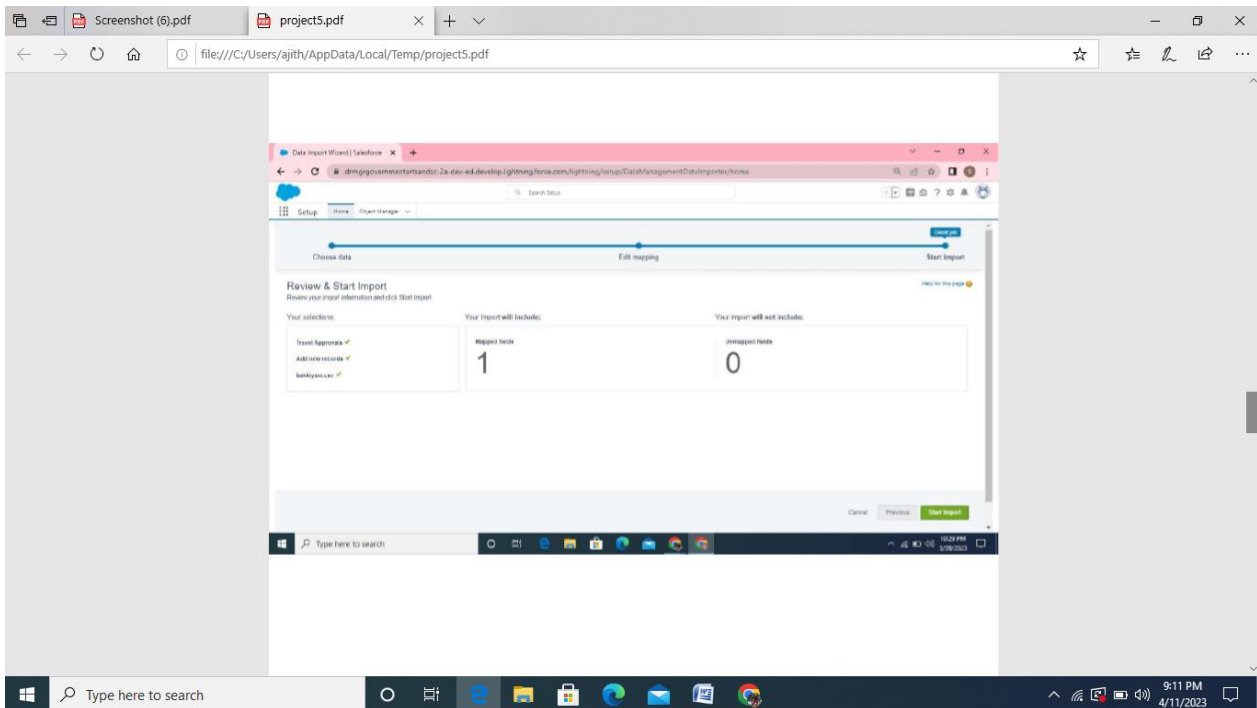

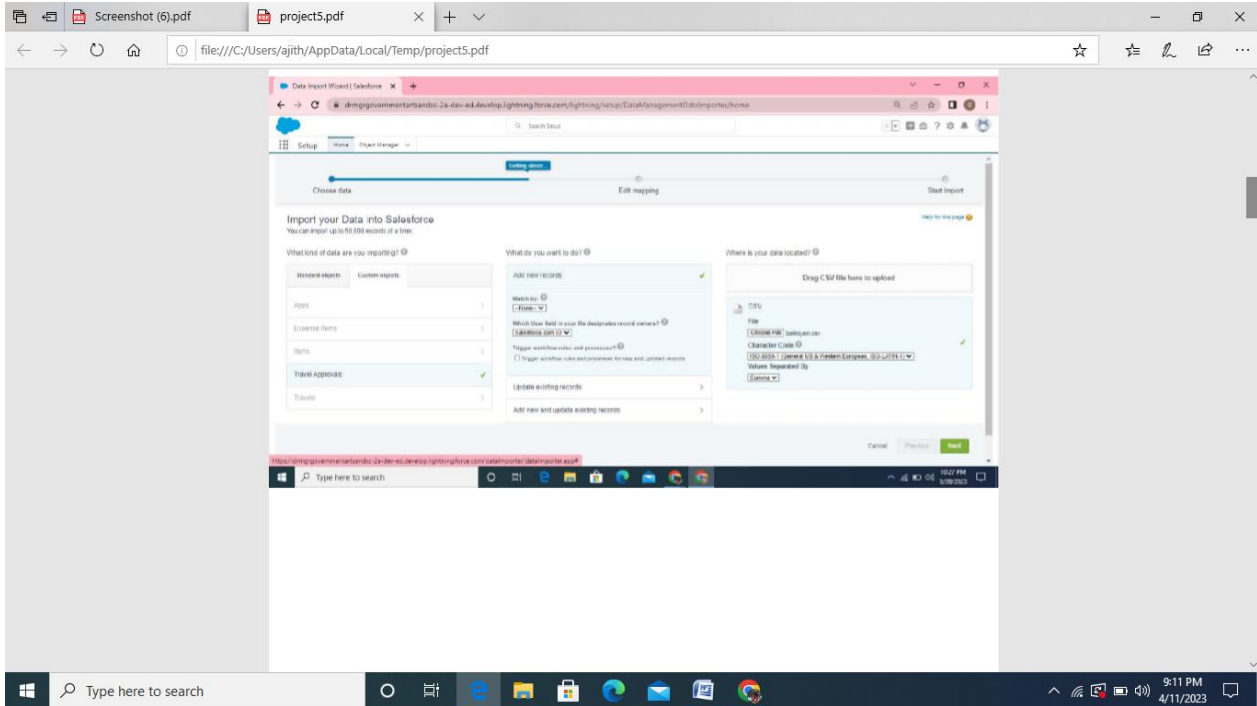

Attach the screenshots of your project activity along with the description.

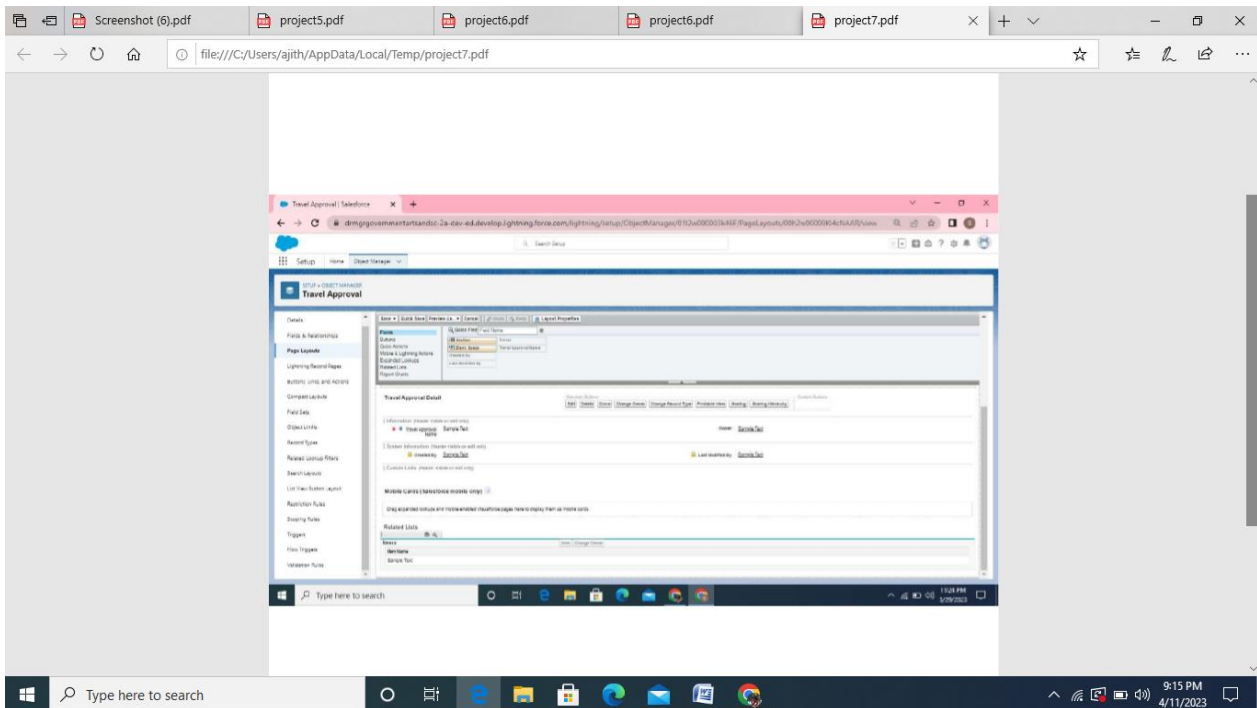

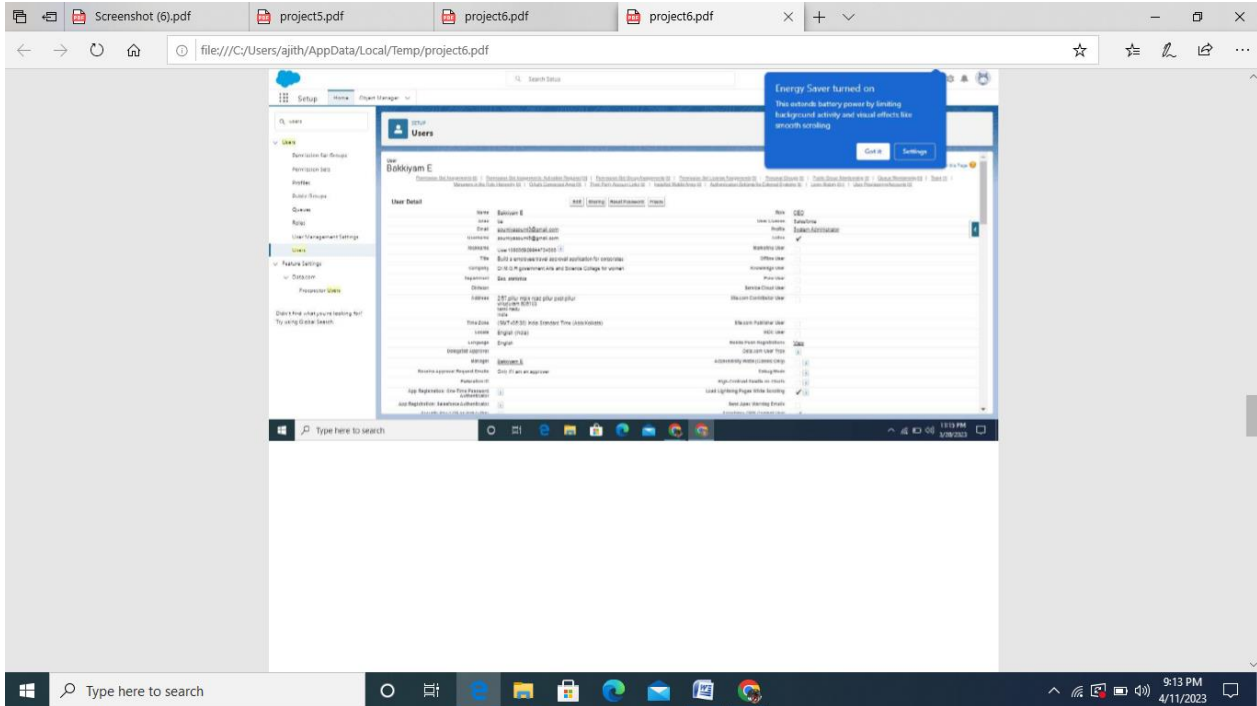

Build a Travel Approval Application For Corporates

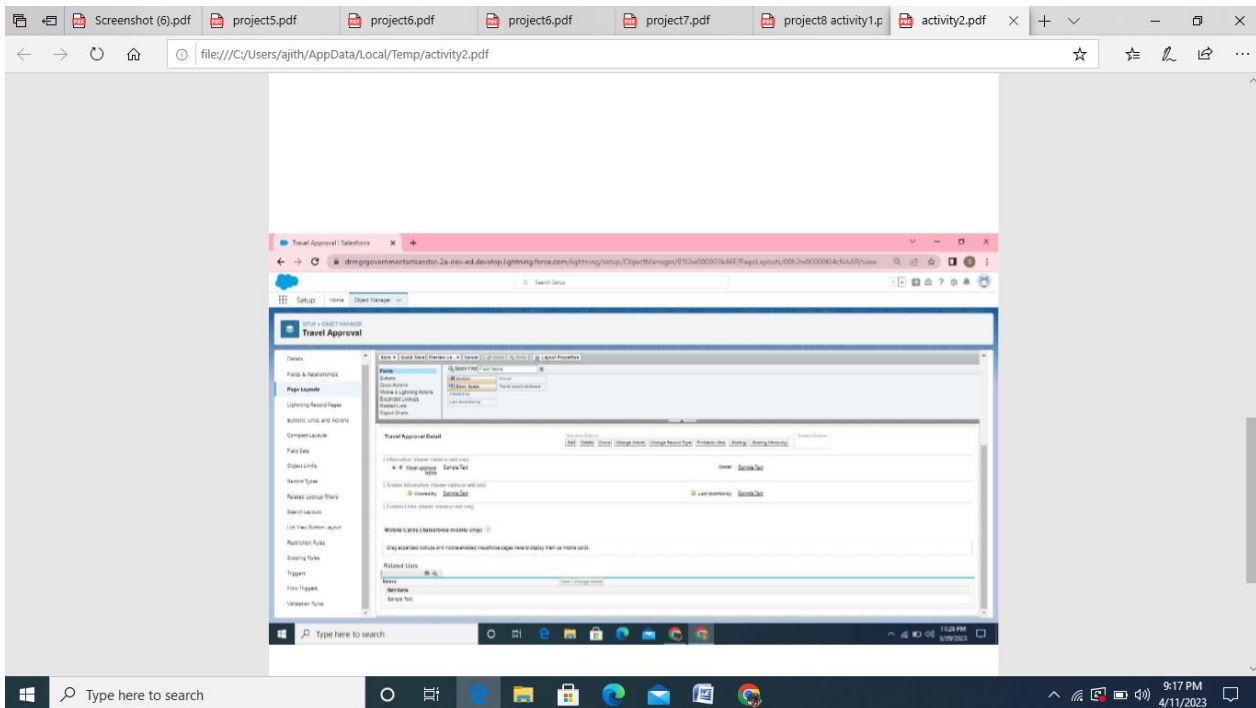

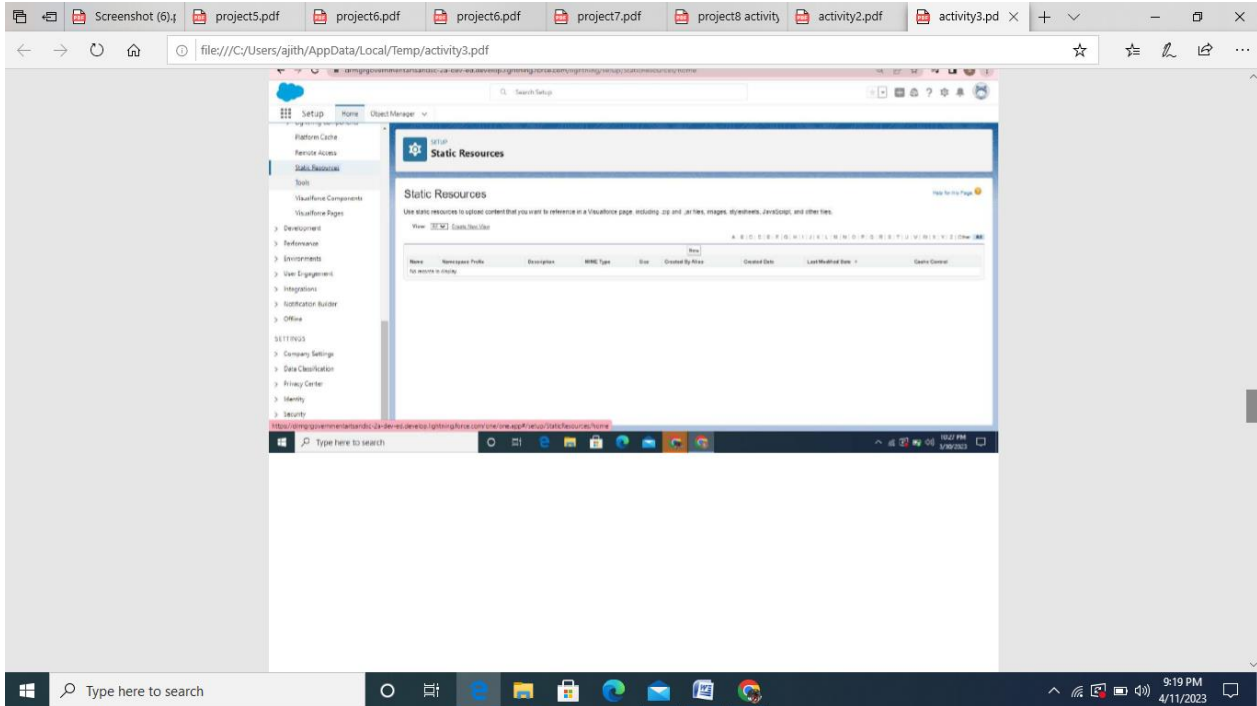

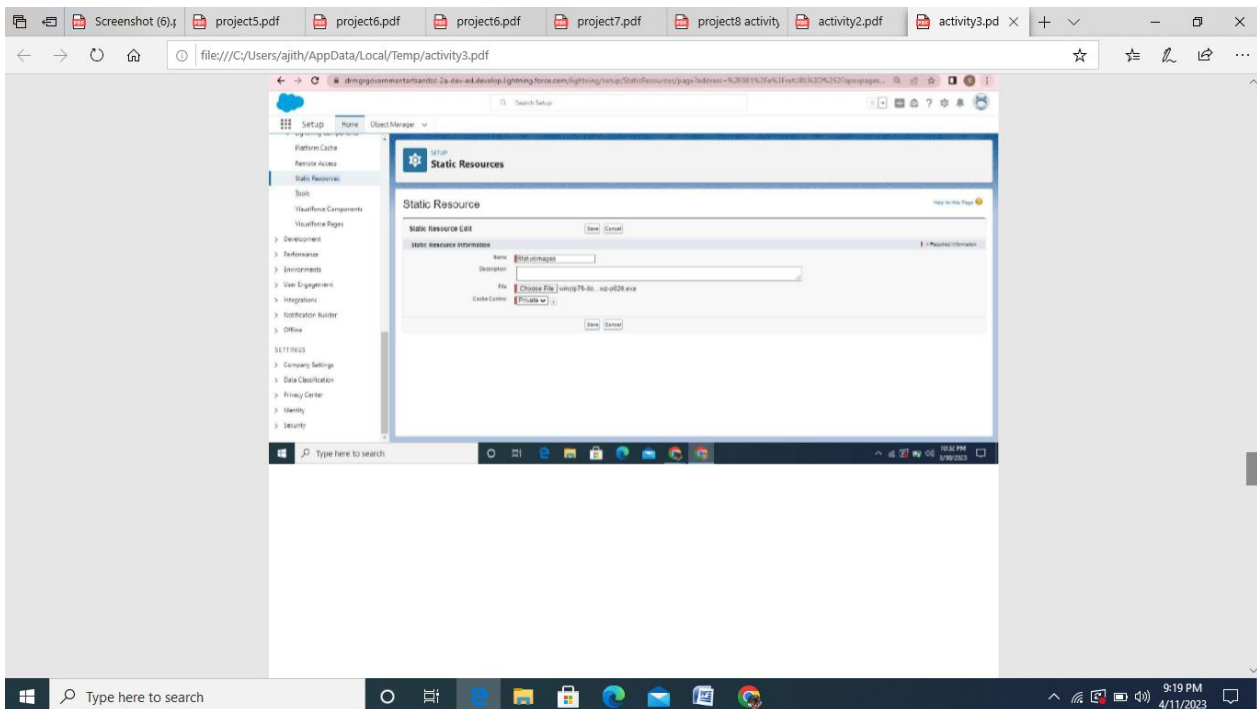

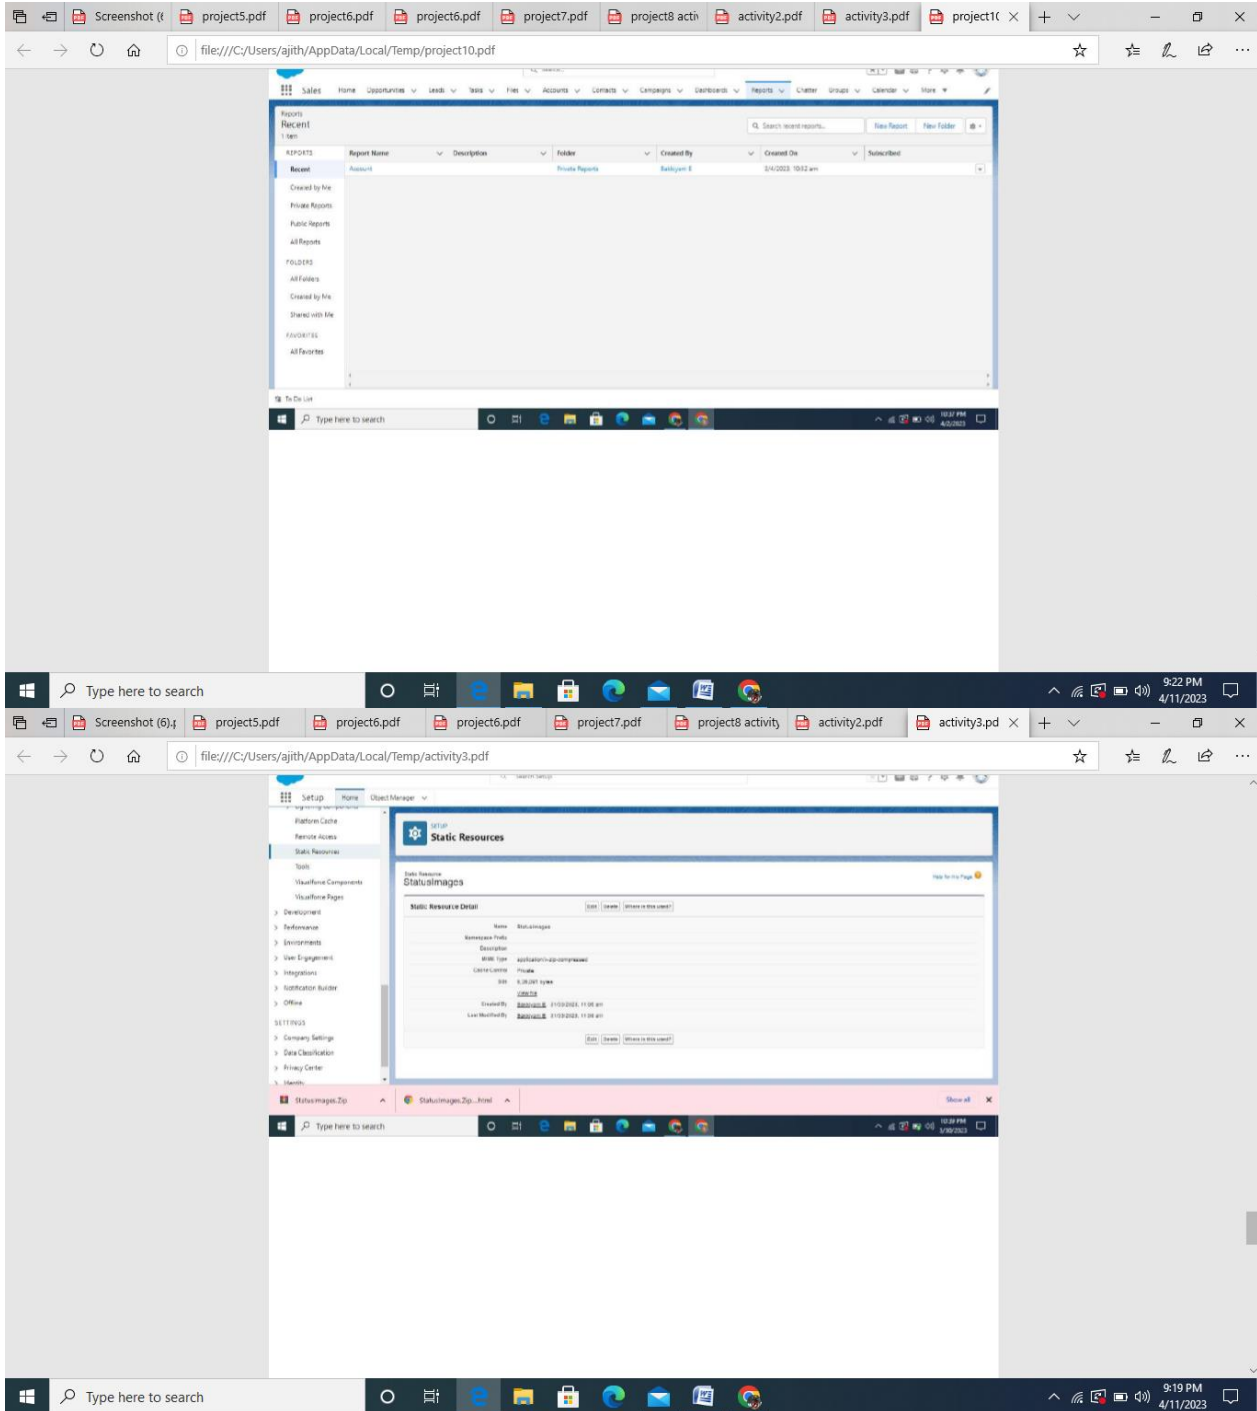

project11.pdf

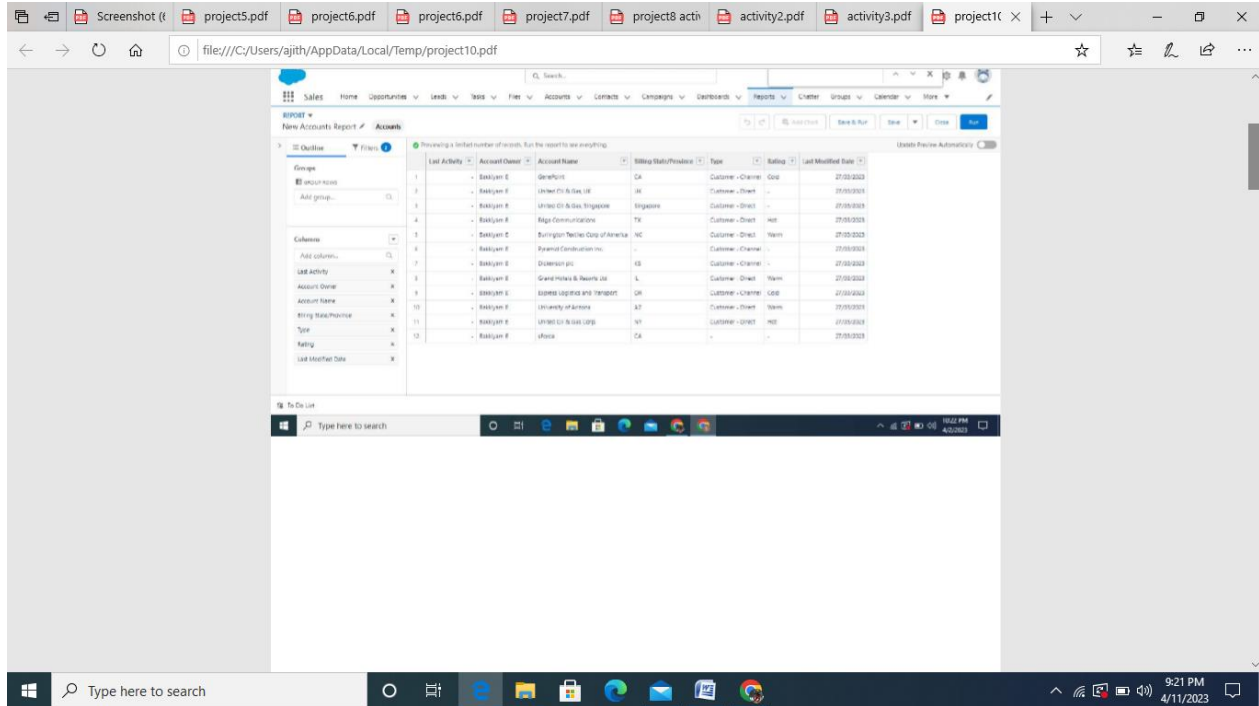

The screenshot displays a web application interface with two main sections: 'Reports' and 'Static Resources'.

Reports Section:

- Recent Reports:** A table showing recent reports. The table has columns: Report Name, Description, Folder, Created By, Created On, and Subscribed. The first entry is 'Account' with a description of 'Account', folder 'Private Reports', created by 'Bakkyan E', on '2/4/2023 10:12 am', and subscribed by 'Bakkyan E'.
- Left Sidebar:** A list of report categories including Recent, Created by Me, Private Reports, Public Reports, All Reports, FOLDERS, All Folders, Created by Me, Shared with Me, FAVORITES, and All Favorites.

Static Resources Section:

- Static Resource Detail:** A table showing details for a static resource. The table has columns: Name, Description, MIME Type, Content Length, Size, Created By, and Last Modified By. The first entry is 'StaticResources' with a description of 'StaticResources', MIME Type 'application/javascript', Content Length '1024', Size '1024', created by 'Bakkyan E', and last modified by 'Bakkyan E'.
- Left Sidebar:** A list of settings categories including Setup, Home, Object Manager, Static Resources, Tools, Visualize Components, Visualize Pages, Development, Performance, Environments, User Engagement, Integrations, Application Builder, Offline, SETTINGS, Company Settings, Data Classification, Privacy Center, and Health.

The screenshot displays a web application interface for a CRM system. The main window shows a 'New Accounts Report' with a table of account data. The table has the following columns: Last Activity, Account Owner, Account Name, Billing Status/Province, Type, Rating, and Last Modified Date. The data is filtered by 'All Accounts' and 'All Status'. The sidebar on the left contains navigation links for Sales, Home, Opportunities, Leads, and more. The bottom of the screen shows a Windows taskbar with the date 4/11/2023 and time 9:21 PM.

Last Activity	Account Owner	Account Name	Billing Status/Province	Type	Rating	Last Modified Date
1	Bakken E	GenPro	CA	Customer - Channel	Good	27/03/2023
2	Bakken E	United Oil & Gas, Ltd	IN	Customer - Direct	-	25/03/2023
3	Bakken E	United Oil & Gas, Singapore	Singapore	Customer - Direct	-	25/03/2023
